EDUCATION

BACHELOR OF TECHNOLOGY – ELECTRONICS AND COMMUNICATION ENGINEERING (JSS Academy of Technical Education, Noida)	CGPA 7.19 2020 – 2024
Class XI-XII, PCM Blue Bells Public School, Jhansi	87.66% 2018 – 2020
Class IX-X Blue Bells Public School, Jhansi	86.33 % 2016 - 2018

PROJECTS

- [E-Commerce Website](#)
 - Developed a fully functional e-commerce application using React, enabling users to browse products, view detailed information, and manage a shopping cart.
 - Implemented complex state management using React Context API (or Redux), ensuring efficient data flow and state consistency across the application.
 - Integrated third-party APIs to fetch product data and handle user authentication, enhancing the application's interactivity and user experience.
 - Designed and implemented a responsive UI/UX using CSS Flexbox, Grid, and media queries, ensuring optimal performance and usability across various devices and screen sizes.
 - Developed a seamless checkout process including form validation, payment integration (e.g., Stripe), and order confirmation, improving the overall user experience.
- [Workout Buddy](#) (MongoDB, Express.js, React.js, Node.js)
 - Utilized MongoDB, Express.js, React, and Node.js to build a full-stack application for managing personal workouts.
 - Integrated secure authentication mechanisms allowing users to create accounts, log in, and manage their workouts securely.
 - Enabled users to add, edit, and delete workouts, ensuring that users can only access and modify their own workout data.
 - Developed backend API endpoints using Express.js to handle CRUD operations for workout management, enhancing scalability and maintainability.
 - Leveraged React for building a dynamic and responsive user interface, improving the overall user experience and application performance.
- [React Notes App](#)
 - Developed a responsive React notes application allowing users to add, delete, and view notes across all platforms.
 - Implemented local storage functionality to store and retrieve notes data, ensuring persistent user data across sessions.
 - Utilized React hooks such as useState and useEffect to manage state and side effects within the application.
 - Demonstrated proficiency in front-end development with React, showcasing the ability to create interactive and dynamic user interfaces.

EXTRA-CURRICULAR ACTIVITIES

- Successfully organized a dance and an art competition as part of the annual college fest, demonstrating strong event planning, coordination, and leadership skills.
- Collaborated with diverse teams, including artists, performers, and volunteers, to achieve common goals and foster teamwork.
- As an active member of the college's dance society "VERVE", demonstrated leadership by helping to organize practices, performances, and workshops.

TECHNICAL SKILLS

Languages: C++, HTML/CSS, JavaScript

Libraries/Frameworks: React.js, Redux, Node.js, Express.js, Bootstrap, Tailwind, Postman, Adobe Photoshop

Tools/Platforms: Git, Github

Databases: MongoDB
